#### CONTACT INFORMATION

Luca FERRERO  
General manager

#### other contact :

Patrice COAT  
Global Account Executive

#### other manufacturing & business plants :

Castres (France), Turin (Italy)  
25 locations in 15 countries

#### KEY FIGURES

**Turnover (2014) :** 1550 M€ (Group)  
**Employees :** 14500

#### CERTIFICATION

ISO 9000 ; ISO 14001 ; EN 16001

**Equipment categories**  
Industrial robotics / Machine-  
tool / CNC

## COMAU FRANCE

### PRESENTATION / KNOW-HOW

With 40 years of experience in advanced manufacturing systems, COMAU is a worldwide leader in sustainable industrial automation. Thanks to its sound expertise in the automotive industry and its international centers of excellence, it has developed a cutting-edge technological know-how and a wide range of applications for many industries : machining and assembly modules, advanced body welding systems and integrated robotics.

### MARKETED PRODUCTS

Gang drilling machines	1					
High speed milling machines	1					
Crankshaft and camshaft milling machines	1					
Horizontal machining centres	1					
High speed machining centres	1					
Flexible manufacturing cells for prismatic parts	1					
Flexible manufacturing systems for prismatic parts	1					
Transfer lines	1					
Drilling units	1					
Milling units	1					
Boring units	1					
Threading and tapping units	1					
Flexible sheet metal working systems	1					
Laser welding machine	1					
Other welding equipment	1					
Assembly	1					
Industrial robots	1					

### BRANDS PORTFOLIO

1 COMAU

SMART DRIVE COMAU

URANE COMAU

SMART CELL COMAU

CYLINDER HEAD MACHINING

## NEW AND KEY PRODUCTS

The latest assembly evolution from COMAU is **the new SmartCubeComau** manufacturing system featuring the most advanced technologies from robotics and integrated assembly systems in a simple, robust and **extremely efficient lean manufacturing solution**. SmartCubeComau resumes COMAU modular assembly concept consisting of four main products: SmartRobComau, a standard, automatic assembly station that is lean manufacturing compliant and able to fit most powertrain assembly processes; **SmartBox Comau**, a **serial assembly module** primarily used for the cylinder head; **SmartCell Comau**, a parallel assembly station that is ideal for low-medium volume automated assembly of **components requiring tight tolerances**, and **SmartManComau**, to meet the needs of manual assembly operations.

## MAIN CUSTOMERS

CHRYSLER - RENAULT - GM - JOHN DEERE - AUTOMOTIVE - AEROSPACE - PETROCHEMICAL - MILITARY - SHIPBUILDING AND ENERGY EFFICIENCY CONSULTANCY...
