### CONTACT INFORMATION

Bernard CARERA  
 Group division manager - Robotics

#### other contact :

Benoît PECCOUX  
 Communications Manager

#### other manufacturing & business plants :

Founded in 1892 in Horgen near Zurich, Stäubli is a large international group headquartered in Pfaffikon (Switzerland). All robots are designed and built in Faverges (France).

### CERTIFICATION

ISO 9001 version 2000

Equipment categories  
 Robotics / Software

# STÄUBLI

## PRESENTATION / KNOW-HOW

Since 1982, **STÄUBLI Robotics** offers a complete range of industrial robots, from low payload **SCARA** models all the way up to **heavy payload 6 axes robots** able to handle loads over 190 kg.

The range is completed by various **systems and market software**. No matter the industry or application, when speed, small footprint, precision and reliability are required, STÄUBLI robots are the perfect fit.

## MARKETED PRODUCTS

Automatic spraying machines / robots for spray finishing	1								
Robots for spraying, lacquering, etc.	1								
Robots for handling, feeding and palleting, etc.	1								
Robots for joining and assembling	1								
Robots technology	1								
Robots for handling, feeding and palleting, etc.	1								
Robots for joining and assembling	1								
Robots for spraying, lacquering, etc.	1								
Robots for chipping processes (sanding, cutting, etc.)	1								
Other robots	1								
Assembly robots	1								
Industrial robots	1								
Manipulating robots	1								
Welding robots	1								
Measuring robots	1								
Robots for other applications	1								
Software for industrial robots	1								

## BRANDS PORTFOLIO

1 STÄUBLI

SYMOP  
 Membre de la FIM

STÄUBLI TP80 FAST PICKER ROBOT DESIGNED FOR HIGH SPEED PACKAGING OPERATIONS

SCARA ROBOTS WITH REACH FROM 220 TO 800 MM, MAXIMUM PAYLOAD OF 8 KG

6 AXES ROBOTS WITH REACH FROM 515 TO 3210 MM, MAXIMUM PAYLOAD OF 250 KG

HE ROBOTS DESIGNED FOR USE IN VERY HUMID ENVIRONMENT

## NEW AND KEY PRODUCTS

The new STÄUBLI robot **TP80 fast Picker** is an extremely fast robot developed for high speed handling operations on **small parts under 1 kg**.

The **TP80 robot** is particularly well-suited for **packaging** applications in various industrial sectors such as Food, Medical, Photovoltaic or Cosmetics.

## MAIN CUSTOMERS

GENERAL INDUSTRY - PLASTICS - PAINT - FOOD - ELECTRONICS - LIFE SCIENCES - MECHANICS - AUTOMOTIVE - PHOTOVOLTAIC
