## DIXI POLYTOOL

### PRESENTATION / KNOW-HOW

DIXI POLYTOOL S.A. is specialized in the **production of tungsten carbide and diamond cutting tools** as well as **precision reamers**.

More than 250 collaborators contribute to the development of the company and allow DIXI to be a **reference as regards tools of precision**.

Each year, heavy investments in the production facility to support the efforts of highly trained employees.

DIXI POLYTOOL does not limit itself to the manufacturing and sales of cutting tools.

**Service** and **added value** play a central role. Actually, a team of application engineers supports customers in order to develop new processes or to improve existing one.

They operate at the customers' workshop, at the machine tool manufacturer or at our premises.

For each situation, we look for a dedicated solution...
