# PROXINNOV

## PRESENTATION / KNOW-HOW

### KEY FIGURES

- Industrial robotic equipment for developments and tests
- A network: research institutes and laboratories, schools and universities, robotic industrials (integrators, constructors...), innovation partners (Clusters...)

### MARKETS AND APPLICATIONS

Thanks to its partners network, PROXINNOV can help:

- Industrials markets as general industry, aeronautics, food-processing, energy...
- All processes as pick and place, welding, trimming, tracking, polishing, packaging...

PROXINNOV helps industrials to be more competitive using robotic technologies, and to know latest's innovative robotic technologies.

### TECHNOLOGIES AND SYSTEM ABILITIES

- Industrial robotic and equipment: ROP (Robotics Offline Programming), Industrial robots, Vision, Laser tracking, various effectors...
- Services: tests (numeric or real), diagnostics, help for definition of robotic cell specifications, benchmarks, general and technological information (conferences, trade shows, demonstrations, ...), teaching...

## MARKETED PRODUCTS

Robots technology	1					
Manufacturing and Process Automation	1					
Workpiece and tool handling	1					
Handling of workpieces	1					
Palletizing of workpieces and tools	1					
Palletizing systems	1					
Assembly robots	1					
Industrial robots	1					
Manipulating robots	1					
Welding robots	1					
Measuring robots	1					
Robots for other applications	1					
Working tools for industrial robots	1					

## BRANDS PORTFOLIO

- 1 PRI PROXINNOV

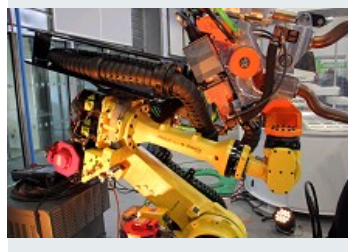

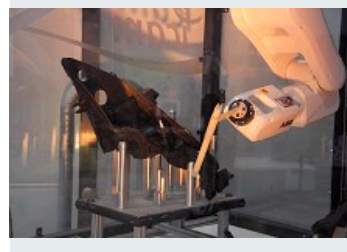

PROXINNOV - FRENCH PLATFORM ROBOTICS

TEST ON THE PLATFORM PROXINNOV

SOLUTION OF WELD OF THE COMPANY LAFFI ON THE PLATFORM PROXINNOV

INSTALLATION OF JOINT ON THE PLATFORM PROXINNOV

## NEW AND KEY PRODUCTS

### STRENGTHS

- Regional, National and International network
- Internal skills
- Robotic equipment

### AMBITIONS

- Helping industrials being competitive through robotisation
- Having a place into the national and international network of robotic

## MAIN CUSTOMERS

### TARGETS

- INDUSTRIALS: DEVELOPMENT OF ROBOTISATION
- ROBOTIC ACTORS: DEVELOPMENT OF ROBOTIC SKILLS FOR BOTH, DEVELOPMENT OF PARTNERSHIPS
