other manufacturing & business plants :

Welding Alloys is present in more than 30 countries worldwide

KEY FIGURES

Turnover (2011) : 30 M€
part of the turnover on the export (market) (2011) : 23,4 M€
Employees : 110

Equipment categories
Welding, brazing, cutting

WELDING ALLOYS FRANCE

PRESENTATION / KNOW-HOW

Since its foundation in 1966, the WELDING ALLOYS Group, an independent group, has specialized in the manufacture of cored welding wires for cladding applications – 100% produced in WELDING ALLOYS factories – 100% WELDING ALLOYS technology.

WA Joining Technology is a division of the WELDING ALLOYS Group and is devoted exclusively to the range of cored welding wires for joining applications. The wide range of non-alloyed, low-alloyed and high-alloyed wires meets or exceeds the most severe metallurgical standards.

A policy of permanent R & D, hand in hand with industrial development, enables us to offer the quality guarantees required by international codes of practice, as exist in the nuclear, petrochemical, offshore, LNG and transport industries.

As a global company, WELDING ALLOYS engineers and technicians are available locally. Technical support and service is provided where it is needed, from international WA Joining specialists.

WELDING ALLOYS performance guarantee means that the product and service with the highest performance for its customers' application will be recommended.

MARKETED PRODUCTS

Automatic welding machinery	1					
Arc welding filler materials		2				
Covered stick electrodes		2				
Flux cored wires (FCAW)		2				
Submerged Arc Welding (SAW)		2				
Welding robot	1

WELDING ALLOYS WIRES

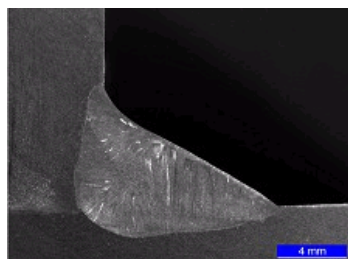

SYMOP
Membre de la FIM

WELDING ALLOYS FRANCE MANUFACTURES CORED WELDING WIRES OF THE HIGHEST TECHNOLOGICAL STANDARDS, OFFERING CONSTANT QUALITY AND HIGH PRODUCTIVITY, A COMBINATION THAT GIVES THE BEST OVERALL VALUE AND COST CONTROL

TUBE S : STAINLESS STEEL FLUX
CORED WIRES

TETRA S : HIGH PERFORMANCE
STAINLESS STEEL FLUX CORED
WIRES

MULTISURFACER : AUTOMATED
WELDING EQUIPMENT FOR
HARDFACING

NEW AND KEY PRODUCTS

WELDING ALLOYS France is a specialist in producing high quality joining wire. WELDING ALLOYS's wide range of nickel based, stainless steel wires meets the strictest requirements in terms of quality and productivity.

Machines designed and produced by WELDING ALLOYS are in the position to weld automatically in different applications like hardfacing and joining very easily with the new D3 Touch technology.

MAIN CUSTOMERS

DCN - ARCELOR MITTAL - EDF - SNCF - DB (DEUTSCHE BAHN) - TOTAL - SOLVAY - ALSTOM - LIEBHERR - CATERPILLAR - MICHELIN
