ESCOFIER

PRESENTATION / KNOW-HOW

Innovation, performance, consistency, trust, and team work are the main contributing reasons for ESCOFIER's success.

Since its creation, ESCOFIER is entirely devoted to **cold rolling technology**, a field in which it has developed a unique worldwide expertise.

Complete turnkey solutions from one single source:

- Design and construction of rolling machines
- Design and manufacturing of rolling tools
- Rolling process design

Benefit from ESCOFIER's expertise and support **from the prototype stage to full production.**
