# GEBE2 PRODUCTIQUE

## PRESENTATION / KNOW-HOW

GEBE2 designs and makes robotized cells for manufacturing composites parts.

Since 1991, its customers recognize its skills in a range of sectors including aeronautics, automobile industry, shipyard.

Its investment in research allows GEBE2 to develop innovative processes which keeps its expertise at the top of robotics.

GEBE2 is a subsidiary of the group Europe Technologies (300 people, turnover of 55M€).

## MARKETED PRODUCTS

Manufacturing and Process Automation	1								
Assembly robots	1								
Manipulating robots	1								
Robots for other applications	1								
global integration	1								
Palletisers using pick & palce systems	1								
Complete packaging lines for : form fill and seal cups, blister boxes, flexible or rigid plastic packaging with or without modified atmosphere	1								
Complete packaging lines for : fill and seal pre-made packtrays, cups, bowls with or without atmosphere	1								

## BRANDS PORTFOLIO

1 GEBE2 PRODUCTIQUE

SYMOP  
 Membre de la FIM

Get robotized !

GEBE2 PRODUCTIQUE

## NEW AND KEY PRODUCTS

- Acoustic drilling cell
- Sanding and polishing cell
- Trimming cell
- Grinding and deburring cell

## MAIN CUSTOMERS

AERONAUTICS - AUTOMOBILE INDUSTRY - SHIPYARD - ENERGY
