CLEIA

PRESENTATION / KNOW-HOW

CLEIA, engineering company based in Burgundy, provides multi-technology turnkey solutions.

CLEIA designs equipment and complete handling systems for many industries: construction materials, automotive, sheet metal working, metallurgy, glassware, agribusiness ...

CLEIA delivers robotic installations and high-tech automation for medium and large projects.

CLEIA has the capacity to realize robotic simulations validated by industrial tests.

CLEIA integrates vision systems for all types of applications.

CLEIA also offers solutions for intralogistics, industrial thermal and industrial IT.

Its know-how in robotics:

- Design of installations with dedicated tools
- Complete and controlled realization with internal resources
- Industrial tests carried out in our workshops
- Global engineering for large export projects
- Customer service for maintenance and hotline operations
- Training in the use and maintenance

MARKETED PRODUCTS

Manufacturing and Process Automation	1					
Conveying equipment and systems	1					
Palletizing systems	1					
Automated guided vehicles	1					
Storage and retrieval machines	1					
Industrial robots	1	2				
Industrial Vision	1					
Vision part	1					
Automatisation part	1					
Mechanical part	1					
Specialized engineering services for construction of new mills and upgrading of existing mills	1					
Maintenance services	1

NEW AND KEY PRODUCTS

CLEIA created the Joyteach®, a universal robotic console for all types of industrial applications. Ergonomic and portable, the console allows intuitive programming of different robots by simplified learning.

MAIN CUSTOMERS

BOUYER LEROUX - COMECA - EDILIANS (EX IMERYS TC) - ETERNIT - EUROSTYLE SYSTEMS - JEAN PERROT - STEMAN - STRADAL - TERREAL - VERALLIA - WIENERBERGER
