TECHNOMARK

PRESENTATION / KNOW-HOW

For 15 years, Technomark has been a **leader in the permanent, direct part marking industry** thanks to the success of the Multi4 modular concept.

Technomark **bases its expertise around three core strengths:**

- **Permanent marking** using the technology of marking laser, electromagnetic dot pen and pneumatically actuated scribing
- **Reading and verifying** of DataMatrix codes and other 2D symbologies
- **Custom engineered and turn key solutions** for special marking requirements involving direct part marking, reading / verifying, database management and part handling...

Technomark's diverse expertise is found in many industrial sectors: aerospace, nuclear, defense, medical, metal work...

Ongoing innovations:

- Technomark invents the 4 in 1 concept when introducing the **Multi4***, the very first marking equipment fully modular: 1 unique machine for 4 possible configurations!
- Technomark introduces intelligent direct part marking with **IDI Mark&track****. This feature ensures the level of quality and consistency of the marking data.

LASER MARKING

NEW AND KEY PRODUCTS

Following the success of its range of permanent marking equipment, **Technomark** launched in 2014 **its new range of marking equipments** dedicated to integration: **M4 Inline**.

This new range of marking equipment is adapted to integration constraints. **M4 inline** is the first integrated marking equipment equipped with a **16-way card** that allows **30%** time saving for the machine commissioning and installation and **40%** maintenance cost reduction.
