VALK WELDING

PRESENTATION / KNOW-HOW

Robotic Supplier

VALK WELDING is a trend-setting supplier of products and services in the field of industrial robotics and welding techniques. With over forty years of experience, VALK WELDING is one of the most experienced players on the market. Based on its extensive assortment, and its unique know-how and experience in the field of both robot and welding techniques, VALK WELDING is able to supply overall solutions that will increase your productivity and performance.

Welding consumables

In more than forty years time, VVALK WELDING has become one of the largest suppliers of welding consumables in Europe. For example, VALK WELDING delivers each month about 500 tons of (solid) welding wire. The assortment further comprises generally known welding consumables such as welding torches, abrasive parts, automatic welding helmets, welding wire feeding systems, autogenous appliances, welding machines and Wire Wizard.

MARKETED PRODUCTS

Robots for handling, feeding and palleting, etc.	1	2				
Robots technology	1	2	3			
Arc welding		2	3			
Industrial arc welding equipment (IEC 60974-1)		2	3			
Industrial TIG welding power source		2	3			
Industrial MIG/MAG welding equipment		2	3			
Welding accessories		2		4		
Wre feeders				4		
Arc welding filler materials		2				
Other equipment		2	3			
Welding robot		2	3			
Welding positioners		2	3			
Other welding equipment		2	3			

BRANDS PORTFOLIO

- 1 FANUC
- 2 VALK WELDING
- 3 PANASONIC
- 4 WIRE WIZARD

SYMOP

Your preferred partner in robotic welding automation

VALK WELDING

INSTALLATIONS EASY TO COMPLEX ROBOTICS SYSTEMS

PRACTICAL TRAINING IN THE USE OF ROBOTIC SYSTEMS.

DTPS 3D SOFTWARE SIMULATE AND PROGRAM THE ROBOT IN OFFLINE.

ACCESSORIES AND CONSUMABLES COMPLETE RANGE FOR WELDING

NEW AND KEY PRODUCTS

New TAWERS welding process Active Wire Process (AWP) for further improved welding quality and cost reduction

New G3 Series available with further developed teach pendant

New feature of **TAWERS-WG3** technology called "Weld Navigation" for easier and faster weld development

Arc Eye Welding seam tracking

MAIN CUSTOMERS

METAL INDUSTRY, AUTOMOBILE, RAILWAY ACTIVITIES, AERONAUTICS, AGRICULTURAL MACHINES...
