equipment

NOVAXESS TECHNOLOGY

PRESENTATION / KNOW-HOW

More than 20 years experience in the field of chip evacuation and processing and the management of cutting fluids.

With a staff of 15 people and an annual turnover of 1.5 million euros, NOVAXESS TECHNOLOGY puts its expertise and experience at the disposal of its national and international customers in the field of **metal chip evacuation and processing** and the **management of cutting fluids**.

NOVAXESS TECHNOLOGY thanks to its ultra-specialised expertise can guide each customer in a very specific domain : the machine-tool by the machining or deformation of chips.

- Technical sales reps services
- In-house design department
- Show-room
- Work shops
- In an area of 1800m2

Defining the needs

- technical specifications, machine drawings, machine equipped with an existing conveyor or a machine non-equipped....
- A technical visit, measurements taken on site, feasibility study, analysis and then a technical proposition, price quote

Design

- Realisation of an overall plan of the environment, of the machine... then NOVAXESS proceeds to the design of the conveyor.
- Realisation of a plan in 3D, then single drawings directly to the cutting and bending machines

Manufacturing

The realisation of the whole processing system in its workshops: assembly, painting, controls and operational tests before delivery.

MARKETED PRODUCTS

Swarf conveyors	1	2				
Filtration, ultrafiltration			3	4		
Maintenance services		2

CONVEYORS - CONVAFLEX® TECHNOLOGY ARE IDEAL FOR LONG AND SHORT CHIPS

MAGNETIC CONVEYORS ARE IDEAL FOR SMALL CHIPS

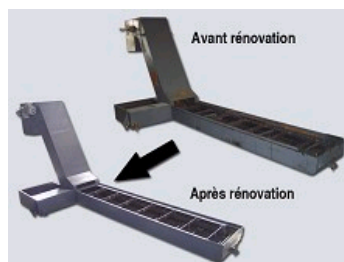

CONVEYORS ARE IDEAL FOR SHORT AND FRACTIONATED CHIPS

CENTRAFLEX® - COOLANT STATION

BELT, SCRAPER, CHAIN DRIVEN ETC..

RENOVATION - MODIFICATIONS - ... IMPROVEMENTS ON ALL KINDS OF CONVEYORS

NEW AND KEY PRODUCTS

A unique technology: CONVAFLEX

NOVAXESS perfect know-how of the customers' expectations and their different applications in the transport of chips has resulted in the development of a process which is exclusive to NOVAXESS TECHNOLOGY, the technology CONVAFLEX which is patent protected.

The machines manufactured by NOVAXESS TECHNOLOGY are unanimously recognised as being reliable and very robust in an effort to respond to the most demanding applications.

All of chip conveyors, filtration stations and multi function pumps are entirely manufactured in France, well thought out and irreproachable in terms of quality.
