## PRESENTATION / KNOW-HOW

HURON's strategy: to make innovative, high-technology, **high-performance products** available to firms working in the Mechanical Engineering Industries.

- Marketing oriented towards the needs of the Transport, Automotive, Aeronautics and intermediate goods sectors.
- Mastery and development of products in cooperation with its industrial partners based on the specifications of needs expressed by the market.
- A quest for excellence in the service guaranteed to customers by HURON teams and their business partners around the world.
- Continuous progression of the skills and expertise of the Company's Technical, Industrial and Commercial staff.

## MARKETED PRODUCTS

Machine Tools	1	2					
Turning Machines (Lathes)		2					
Vertical turning machines		2					
Turning centres		2					
Milling machines	1						
Universal bed type milling machines	1						
Vertical bed type milling machines	1						
Milling and boring machines	1						
Circular table milling machines	1	2					
Universal tool milling machines	1						
High speed milling machines	1	2					
Die-sinking machines	1	2					
Crankshaft and camshaft milling machines	1						
Machining Centers	1	2					
Vertical machining centres	1	2					
High speed machining centres	1	2					
Other machining centres	1	2					

## BRANDS PORTFOLIO

1 HURON

2 JYOTI

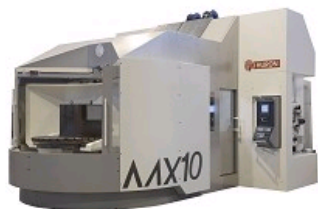

SYMOP  
 Membre de la FIM

Since 1838, precision, our tradition

HURON GRAFFENSTADEN

K3X 8 FIVE - NEW GENERATION OF MILLING CENTRES WITH INTEGRATED BI-PALLET SYSTEM

MX 10 - MILL/TURN CENTRE FOR "ALL IN ONE" WORK

VX 6 - SIMPLE AND EFFICIENT MILLING CENTRE

KXG - GANTRY MILLING CENTRE FOR COMPLEX WORKPIECES IN AEROSPACE FIELD

## NEW AND KEY PRODUCTS

The current range aims to satisfy **the most varied requirements**. From unique models to small and medium-sized production runs, for turning or milling, the "All-in-One" meets the expectations of our most demanding customers.

**Vertical machining centres** renowned for their **precision** and **reliability** range from entry-level models with a highly satisfactory technological package to **extra-large machining centres** incorporating high-level technology to **perform top-quality** technical operations.
