

### CONTACT INFORMATION

Bruno LEFEBVRE  
General manager

#### other contact :

Marc MICHIELS  
Marketing manager

#### other manufacturing & business plants :

Headquarter : Roissy CDG  
4 agencies : Lyon (69)  
Cluses (74), Strasbourg (67),  
Toulouse (31)

### KEY FIGURES

Turnover (2015) : 24 M€  
Employees : 77

### CERTIFICATION

ISO 9001 - version 2008

## MITUTOYO FRANCE

### PRESENTATION / KNOW-HOW

Thanks to its dynamic research and development effort associated with a high-performance production tool, MITUTOYO – founded in 1934 – has become the worldwide specialist in dimensional metrology.

The group proposes far-reaching know-how in the design and manufacture of dimensional metrology products in the following ranges: Handheld instruments, coordinates measuring machines, vision measuring machines, microscopes and profile projectors, hardness testers, form and roughness measurement, optoelectronic measuring rulers, gauge blocks, laser micrometers.

#### MITUTOYO around the world :

- Consolidated sales of €730 million
  - 5,000 employees worldwide • Ten factories around the world
  - More than 250 people dedicated to R & D in eight design centers
- MITUTOYO has 85 Mcube centers of competence working in 29 countries, backed up by a distribution network covering 80 countries.

#### MITUTOYO in France :

MITUTOYO France has existed since 1986 and generates sales of €24 million. It has a workforce of 77 people.

Besides its Headquarters at Roissy CDG, MITUTOYO has four agencies located in Lyon, Strasbourg, Toulouse and Cluses. MITUTOYO thus offers a comprehensive range of services from these centers of competence: sales support, measurement subcontracting, demonstration, applications development, training and after-sales service.

### MARKETED PRODUCTS

Micrometers	1						
Circularity measurement	1						
Surface measurement	1						
Profile and shape measurement	1						
Profile projectors	1						
Three-dimensional measuring machines	1						
Microscopes	1						
Coordinate measurement machines softwares	1						
Hardness testing machines	1						
Image data processing	1						

### BRANDS PORTFOLIO

1 MITUTOYO

FIVE CENTERS OF COMPETENCE IN FRANCE

COORDINATE MEASURING MACHINE : CRYSTA APEX-S

AGILE MEASUREMENT SYSTEM : MACH KO-GA-ME

VISION MEASURING MACHINE : QUICK IMAGE

## NEW AND KEY PRODUCTS

**The MACH Ko-ga-me** - essentially a compact CMM - is your perfect solution for automated cells. Mounted on any rigid frame, including machine tools the MACH Ko-ga-me will give you CMM capabilities without the space requirements of a full-sized machine and in-process measurement without involving set-up breakdown.

**Quick Image** is new concept in 2-D vision measuring instruments. The ultimate in simple operation with one click measurement. It provides unique feature for improving measurement efficiency.

## MAIN CUSTOMERS
