MULTISTATION

PRESENTATION / KNOW-HOW

A FRENCH DIGITAL AND ADDITIVE MANUFACTURING ENGINEERING COMPANY Multistation, established in 1987 is an independent provider of disruptive and advanced consulting, services and devices for digital and additive manufacturing.

The activity is organized around three poles:

- Digital manufacturing with the sales of new machine tools and industrial equipment
- Additive Manufacturing assets management
- Additive engineering with consulting and services
- Additive Explorative Additive Invest with the delivery of new machines
- Second Life machines with an international confidential market platform for "certified pre-owned machines" Multistation's collective intelligence is made up of application engineers, service technicians and back office experts, supported by an international sales and technical network.

In this volatile, uncertain, complex and ambiguous 4.0 world in permanent overhaul, we have made loyalty, trust and transparency our ethical foundations, with our clients, partners of excellence and team.

MARKETED PRODUCTS
