FIVES CONVEYING

PRESENTATION / KNOW-HOW

FIVES CONVEYING designs **high performance handling equipment** and **complete systems** for many worldwide sectors of activity such as aerospace, mechanical engineering, non ferrous and ferrous metallurgy industries and in particular for automotive industry for body-in-white, paint and vehicle assembly shop and isolated load handling conveyors for production workshop.

FIVES CONVEYING develops technologies and provides **solutions for all heavy handling processes used in assembly** (simultaneous engineering,...).

FIVES CONVEYING has the capacity to **manage worldwide large and complex projects** both greenfield turnkey assembly plants/installations and existing installations **modernization** and/or **refurbishment**.

MARKETED PRODUCTS

Workshop fittings	1	2				
Lifting and transport equipment	1	2				
Manufacturing and Process Automation	1	2				
Workpiece and tool handling	1	2				
Loading and feeding equipment for machine tools	1	2				
Conveyors for painting and surface treatment systems	1	2				
Conveying equipment and systems	1	2				
Automated guided vehicles	1	2				
Storage equipment and systems	1	2				
Components to interlink separate production stages	1	2				
Automatic assembly machines	1	2				
Assembly lines	1	2				
Other assembling machines and equipment	1	2

CFCFRIXLINE

MARRIAGE STATION

ISOLATED HEAVY LOAD HANDLING SYSTEM

CFC EMS

NEW AND KEY PRODUCTS

Electrical overhead conveyor CFC EMS: modular - no noise - no grease - low maintenance

Composed of trolleys carrying individual loads at low or high speed. Traditional busbar or power induction with WiFi (CFC e-EMS). On-board energy capabilities such as electrical testing, rotating, lifting, clamping.

Conveyor CFCFrixline: flexible - no noise - no grease - lower energy consumption

Attaching connecting bars, enabling to set up trains of carriers, lowers the cost and energy consumption and guarantees **operator safety** on the shop floor. Its simplicity also provides high reliability and quicker, cheaper and easier maintenance.

MAIN CUSTOMERS

AGCO - AREVA - AVTOVAZ - BOMBARDIER - CATERPILLAR - DASSAULT - ECL - GOODRICH - HAULOTTE - JAGUAR - JOHN DEERE - LATECIS - MANITOU - RENAULT NISSAN - OUTOTEC - PSA
