DUFIEUX INDUSTRIE

PRESENTATION / KNOW-HOW

DUFIEUX INDUSTRIE designs and builds **large capacity Machines** for Milling, Turning, boring and High Speed applications. The company has developed a wide range of standard modules to offer **“customized” solutions.**

DUFIEUX INDUSTRIE's commitment: to **focus on customer needs** while outperforming competitors in the market.

Today, DUFIEUX INDUSTRIE serves the Aerospace, Energy, Railway, general mechanic through close partnerships involving end users experience for **the most cost effective solutions.**

DUFIEUX INDUSTRIE's **highly skilled teams of technicians** offer a complete project management, **from the study up to the industrial start up.** Efficient and friendly communication with our customers is also a major key of DUFIEUX INDUSTRIE's success.

“Performing Together” is DUFIEUX's doctrine for greater challenges and constant improvement.

MARKETED PRODUCTS

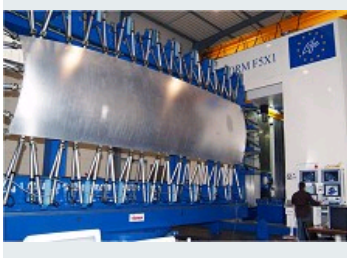

Vertical turning machines	1					
Turning centres	1					
Horizontal drilling machines	1					
Drilling machines - Multi way	1					
Plano-milling machines	1					
Circular table milling machines	1					
High speed milling machines	1					
High speed machining centres	1					
Flexible manufacturing cells for prismatic parts	1					
Flexible manufacturing cells for axial parts	1					
Flexible manufacturing systems for prismatic parts	1					
other grinding machines	1					

BRANDS PORTFOLIO

1 DUFIEUX-INDUSTRIE

SYMOP
 Membre de la FIM

AERO: MILLING MIRROR SYSTEM TECHNOLOGY WORLD LEADER IN ALUMINIUM FUSELAGE SKIN MACHINING. PATENTED CONCEPT

ENERGY: WORLD LARGEST DEEP BORING MACHINE FOR STEEL LONG PARTS (MAXI INSIDE DIAMETER UP TO 2400 MM)

RAIL: HIGHLY PRODUCTIVE TWIN SPINDLE HEAVY MILLING GANTRY TO PROCESS ANY TYPE OF RAIL-TRACK SYSTEMS

AERO: THE BEST CUTTING-EDGE TECHNOLOGY TO WIN FUTURE AEROSPACE PROGRAMS FOR TITANIUM PARTS MACHINING

ENERGY: LARGE ROTORS DRILLING CENTRE FOR BLADE FITTING WITH MULTIPLE STATIONS

STEEL: HEAVY PORTAL MILLING MACHINES FOR VERY TIGHT ACCURACY JOBS

NEW AND KEY PRODUCTS

Aircraft Industry:

After its successful **Milling Mirror System** Medium & Large Series, DUFIEUX INDUSTRIE has designed and installed in 2011 the new MMS "Small" series dedicated for Regional jets, Bizjets and Helicopters aluminum skin fuselage.

Energy Industry:

DUFIEUX INDUSTRIE has recently been rewarded with a contract to design and supply a new generation **Heavy Duty Rotor Slotter Machine** with forecasted drastic productivity improvement.
