# LGB MACHINES SAS

## PRESENTATION / KNOW-HOW

LGB, a French machine-tool manufacturer, has cumulated know-how and experience in **grinding** and **milling** since 1952.

The **"high-speed" versions** of LGB's grinding and milling centres offer users **significant gains in terms of productivity, quality and competitiveness.** Grinding and milling centres have many fields of application, in particular in the following sectors: production tooling, injection moulds, cutting tools, forming tools, foundry tools, forging tools and aeronautical parts machining.

LGB machines S.A., a machine-tool manufacturer, makes **50% of its turnover abroad.**

Charles G. FISCHER  
 Chief Marketing Officer (CMO)

## MARKETED PRODUCTS

Machine Tools	1						
High speed machining centres	1						
Grinding machines	1						
Horizontal spindle surface grinding machines	1						
Surface grinding machines with adjustable spindle (universal)	1						

## BRANDS PORTFOLIO

1 LGB

SYMOP  
 Membre de la FIM

KX 45 SQUARE FIVE - CENTRE D'USINAGE 5 AXES  
TRAVELS : 1500 X 1500 X 800  
SPINDLE : 18 000 RPM

RN 1270 - PORTAL GRINDING MACHINE  
TRAVELS : 1200 X 700 X 450

RN 1260 - SINGLE COLUMN GRINDING MACHINE  
TRAVELS : 1200 X 600 X 400

## NEW AND KEY PRODUCTS

5-axis machining centre LGB KX 60: 4 300 x 2 650 x 1 000

5-axis machining centre LGB KX 45 square: 1 500 x 1 500 x 800

## MAIN CUSTOMERS

ALL INDUSTRIAL SECTORS: PRESS TOOLS / CUTTING TOOLS / MOULDS / AERONAUTICS / PRECISION MECHANICS
