## MAPE RGA

### PRESENTATION / KNOW-HOW

#### MAPE RGA, grinding and cutting machines french manufacturer

Since 60 years, MAPE machines are designed for industrial applications of grinding, polishing, deburring of metallic pieces.

RGA cutting machines use grindstone for cutting hardness materials and drill saw for steel or stainless steel.

MAPE RGA's machines are very strong and have a **very long life**.

The products are **designed and manufactured in France**.
