 Machine-tool

FIVES MACHINING

PRESENTATION / KNOW-HOW

FIVES MACHINING designs, and supplies high-precision machines, high-speed machining centers, high performance composite processing systems for production of complex parts, laser-based systems, welding and special purpose applications, related to a full range of services dedicated to the performance of machines throughout their life-cycle.

MARKETED PRODUCTS

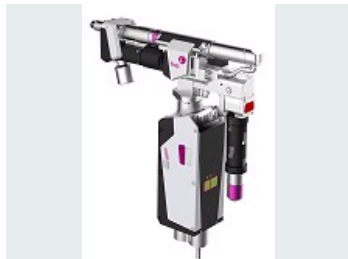

Machine Tools	1	2	3	4	5	
Vertical turning machines	3					
Bed type boring and milling machines - fixed column	3					
Bed type boring and milling machines - moving column	3					
Boring and milling machines, gantry type	1	2	3	4		
Milling and boring machines	1	2	3	4		
Circular table milling machines	1	2				
High speed milling machines	1	2				
Horizontal machining centres	3					
Vertical machining centres	5					
High speed machining centres	1	2	5			
Drilling units	6					
Surface broaching machines	7					
Laser welding machine	5					
Cutting and laying machines for fibre and resin composite tapes	1	2				
Angular heads	2					
Maintenance services	7					
Retrofit	7

NEW AND KEY PRODUCTS

An extensive supply offer of machine-tool in a broad range of industries

In 2013, FIVES has strengthened materially machine-tool business with the acquisition of Mag Americas, a high-performance world leading equipment provider. FIVES offers machine-tools and complete manufacturing solutions by drawing on world renowned brands such as **Cincinnati, Giddings & Lewis, Forest-Liné, Liné Machines and Rouchaud.**

FIVES' Metal Cutting | Composites services offer: Global Services

FIVES MACHINING combines expertise as machine-tool manufacturer and complete manufacturing production systems with expertise of rebuilder, to provide a tailor-made support to optimize manufacturing tools of their customers.

eADU®: a real technical breakthrough in the field of automated drilling

The eADU® is an intelligent automated drilling unit thanks to embedded electronic for programming and data recording, interchangeable electrical motors, modular and ergonomic design.

Additive manufacturing :

Working in partnership with BeAM company, Fives purpose 5-axis Laser Metal Deposition (LMD) centers dedicated to additive manufacturing.
