THIMON

PRESENTATION / KNOW-HOW

THIMON's expertise is backed by its comprehensive research and development policy with over 50 years at the service of its customers.

Thanks to its wealth of expertise, the processes, plus constraints of the various industrial and business sectors and its adaptation to the specifics of each one, THIMON's product lines and film overwrapping solutions are now unrivalled throughout the world.

Since 1968, THIMON is a family-run business backed by **continuous innovation**. Its complete expertise of **overwrapping technologies**, coupled with the recognition and loyalty of its customers, have already made it a leading market player over the world...

THIMON's processes: spiral wrapping, skrink hooding, stretch hooding, full web wrapping, handling systems.
Its team implements solutions for each business sector.

NEW AND KEY PRODUCTS

BandoFix: Pallet wrapping finally compatible with automatic warehouses!

BandoFix is an innovative palletised loads wrapping process, recently developed and patented by Thimon.

The principle of BandoFix:

- To ensure that products are held on the pallet, respecting their integrity.
- Clear the bottom of the pallet, to make it 100% compatible with automated storage and handling systems.
- To offer a recyclable solution, allowing energy savings throughout its use cycle.
