Robotics / CNC / Assembly

KUKA SYSTEMS GMBH

PRESENTATION / KNOW-HOW

The KUKA Systems Group is one of the world's leading providers of **engineering services** and **manufacturers of flexible automatic production systems**. Its customers are companies from the automotive, aerospace, solar industries among others. Its range of performance encompasses products and services for **almost all applications in the industrial processing of metallic or non-metallic materials**.

With 5810 employees in over 15 countries each of the companies works for the production solutions of the future.

Its ideal: the perfect body KUKA Systems masters the **production of car bodies in all conceivable variants**. From the smallest flap to the complete body-in-white, from fully-automated to semi-automated production. And, what is more : KUKA Systems is world champion in flexibility. KUKA Systems **production lines** are used in the manufacture not only of high-volume models, but also vehicles with **up to eight**, often very different, **variants**.

KUKA Systems is the first port of call in body production for many large makers, and also many smaller and medium-sized manufacturers. Even for tasks requiring the utmost sensitivity, everyone knows that they are in good hands with KUKA Systems.

MARKETED PRODUCTS

Soldering equipment and accessories	1					
Conveying equipment and systems	1					
Components to interlink separate production stages	1					
Assembly lines	1					
Flexible assembling systems	1					
Sheet metal assembly and welding machines	1					
Grippers and tools for robots	1					

BRANDS PORTFOLIO
