FSH WELDING GROUP

PRESENTATION / KNOW-HOW

The FSH Welding Group, a French manufacturer of innovative welding and brazing products, is a significant operator in the international market. The quality of its products and its services, and its highly focused research & development have, over the years, made the group a benchmark among the largest manufacturers in the world.

Now present on all continents through its subsidiaries and partners, the family business has successfully expanded to offer one of the widest ranges of welding and brazing products on the market. The group has a particularly strong presence in specific, very technical markets and in industrial sectors with high added value such as aeronautics, chemicals, petrochemicals, ground transport and nuclear power.

The company has maintained its code of ethics throughout its 200 years of existence, with regard to both its customers and its employees. A rigorous dynamic approach has always been at the core of its values, and it is on this basis that group has embarked on a new growth phase, developing the synergies between its various entities.

KNOW HOW:

To manufacture welding consumables, the FSH Welding group implements specific skills.

Master of all manufacturing processes on their different phases:

Technical knowledge in metallurgy and chemistry; Control of foundry techniques: drawing, extrusion / coating, scouring, marking, flagging; Quality system and product; Measurement and control; Packaging.

MARKETED PRODUCTS

Welding, brazing and gas cutting machines	1						
Covered stick electrodes		2					
Flux cored wires (FCAW)		2					
MIG/MAG/TIG (GMAW and GTAW) Wires & Rods		2					
Soldering filler materials			3				

BRANDS PORTFOLIO

1 SELECTARC

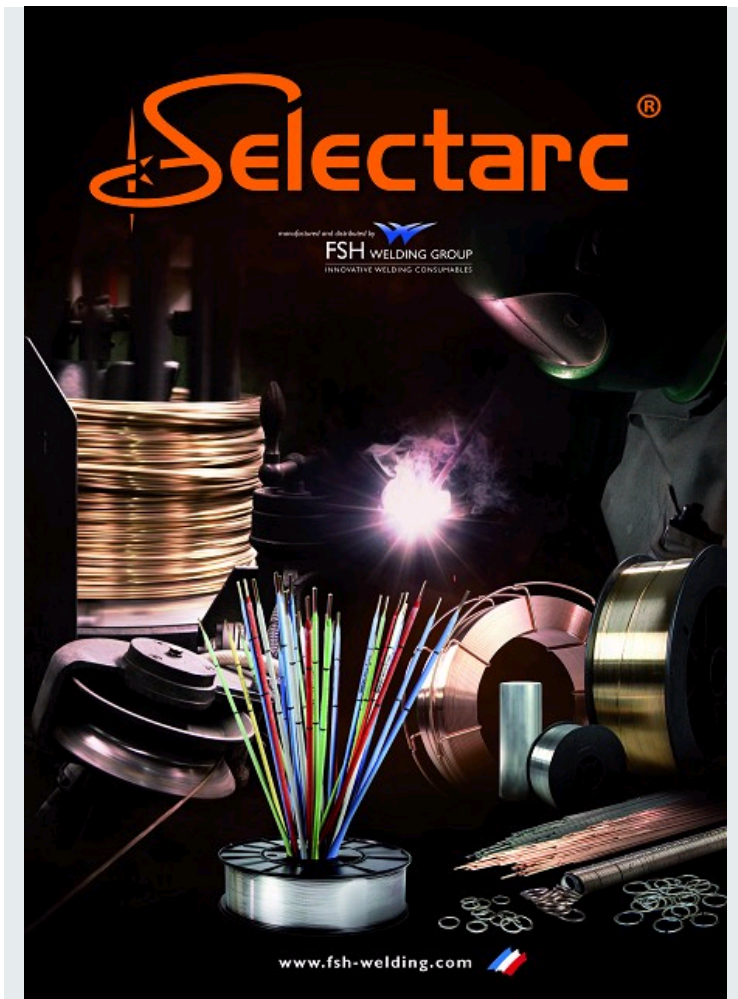

2 SELECTARC WELDING

3 SELECTARC BRAZING

Solution provider of welding and brazing specialties!

FSH WELDING GROUP

SOLUTIONS PROVIDER OF WELDING AND BRAZING SPECIALTIES

PRODUCTION OF FLAGGED TIG WIRES FOR THE AERONAUTICAL SECTOR

BRAND SELECTARC

NEW AND KEY PRODUCTS

- **TBM Total Brazing Mix®** : a high-tech innovative industrial product, unique in the world, internationally patented for aluminum brazing.
- **TBW - Tubular Brazing Wire** : the ultimate major technical evolution recently developed in terms of product shape and process.
- **Selectarc B58** : electrode with thick basic coating for high security joining!
- **Selectarc Fonte Marine** : electrode with a "bimetal" core for welding cast iron, specially designed for the reconditioning of marine engine components.
- **Selectarc HBC 63** : excellent synthetic rutile-basic coated electrode with high recovery for hardfacing.
