LINCOLN ELECTRIC FRANCE

PRESENTATION / KNOW-HOW

Founded in 1895 by John C. Lincoln, Lincoln Electric is the world leader in the designing, developing and manufacturing of arc welding products, robotic arc-welding systems and plasma and oxyfuel cutting equipment and has a global leading position in the brazing and soldering alloys market.

Headquartered in Cleveland, Ohio, U.S.A., Lincoln has manufacturing locations -including operations- manufacturing alliances and joint ventures in more than 20 countries and a worldwide network of distributors and sales offices covering more than 160 countries. Lincoln has a global workforce of more than 9000.

Lincoln Electric France is an European factory of the American holding. The factory is installed on the current site of Grand Quevilly, inside the agglomeration of Rouen since 1958. Renowed for the quality and the durability of its welding equipments, Lincoln Electric France is specializing in the welding industry and in the manufacture of consumables.
