board industry

## ABK MACHINERY S.A.

### PRESENTATION / KNOW-HOW

ABK GROUP, created in 1952 under the name ATELIERS ALLIBE, is one of the leading full scope suppliers of complete machines and equipments for the production of **all grades of paper** from tissue and W&P to newsprint and packaging grades as well as fine paper and specialty papers, reconstituted tobacco, insulating board, filter paper, banknote paper, decor paper etc. Making use of great workshop capacity in Europe and of an **unquestionable technical know-how** reinforced by the technology and the experience developed over 60 years of history, ABK GROUP is fully qualified for managing projects on a turnkey basis whatever the scope of supply: **brand-new installations, equipment customization, or revamping** of existing machines, with a focus on the design and development of cost-effective, standard and modular products that can be combined to provide solutions for unique, customer specific requirements in a timely and cost-effective manner.

ABK GROUP can offer **reliable equipments** that embody the latest technology and guarantee all customers' expectations in terms of production capacity, end-product quality, dry content performances. In addition to complete paper, board and tissue machines, ABK GROUP scope of supply includes: hydraulic head box with dilution system, top formers, fourdrinier, shaking unit, shoe press, film press, coater, hard and soft calender, hydraulic pope, rewinder, hood, yankee dryer, infrared / non-contact drying systems... all customized and designed according to customer's data.

### MARKETED PRODUCTS

Manufacturing and Process Automation			3			
Software for machines			3			
Diagnostic systems and software			3			
Equipment for paper machines	1			4		
Board and paper machines and sections of machines	1					
Drying	1	2				
Rewinders, slitters, cutting machines, perforators	1					
Services						5
Specialized engineering services for construction of new mills and upgrading of existing mills	1					
Maintenance services	1					5
Services for machine erection	1
