DEUBLIN

PRESENTATION / KNOW-HOW

Since its creation in 1945 DEUBLIN has become the world leader in the manufacture of rotary joints, steam condensate unions and siphons for any type of application.

DEUBLIN is four ultra modern production facilities, 16 subsidiaries completed by a commercial network and international service.

Rotating joints, steam unions, are used in many industrial sectors. It can be in water, steam, oil, coolant or other fluid to be pumped through dryers, coolers, shafts, rollers conveyors....

DEUBLIN Unions are at the forefront of technology thanks to the establishment of industrial partnerships and a research center policy.

The DEUBLIN product range is constantly developed and expanded. DEUBLIN is also able to offer specially designed solutions that perfectly meet the specific needs of the industry.

Permanent contact with the end users and close cooperation with machine manufacturers are based on constant improvements by DEUBLIN.

Quality for the entire company, efficient and reliable products at competitive prices and delivered just in time, is a standard adopted by DEUBLIN with the full integration of a quality control system that is applied to all levels of organization. DEUBLIN is ISO 9001/14001 certified.

MARKETED PRODUCTS

Rotating unions for all type of application	1					
Drying	1					
Stationary syphon and rotary joint	1					
Cooling systems cylinders	1					
Specialized engineering services for construction of new mills and upgrading of existing mills	1					

BRANDS PORTFOLIO

1 DEUBLIN

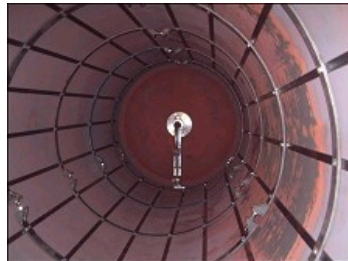

SYMOP
Membre de la FIM

SUPPORTED OR SELF SUPPORTED STEAM AND CONDENSATE UNIONS , ROTATING OR STATIONNARY SIPHONS ,COOLING SYSTEMS FOR CYLINDER ROLLS, STEAM CONDENSATE SURVEY AND ENGINEERING FOR PAPER MACHINE'S DRYING SECTION

DEUBLIN HPS STEAM
CONDENSATE UNION FOR HIGH
PRESSURE STEAM

TURBULATOR BARS FOR PAPER
MACHINE CYLINDER'S DRYERS

ROTATING UNIONS MONO OR
MULTI - PASSAGES FOR ALL TYPE
OF APPLICATION

NEW AND KEY PRODUCTS

As part of its development policy in recent years Deublin introduced on the market of high-technology products such as: rotary union **CK Bu-Bu** hot oil for paper machine calander, stationary siphon **DELTA SINT SL** for dryers driven by open gears, cooling systems **-F50S F65S F80S-F100S** for press and size press cylinders. All these high quality products have common points such as, very high reliability, low maintenance costs, energy and production costs saving .

MAIN CUSTOMERS

ALLIMAND - ABK - INTERNATIONAL PAPER - SMURFIT - ARJO WIGGINS - MUNKSJO -KIMBERLY CLARK - CASCADE - PDL - SWM - NORAMPAC - ALSTOM PAPER - PAPETERIE DE MANDEURE - UPM KIMENEY - GPC - SOTIPAPIER -T.PAP - TUNISIE OUATE - ARCELOR MITTAL - RENAULT - PSA - F.M. - ST GOBAIN - NOVELIS - ST MICRO
