Complete innovative training solution with active e-learning

This solution includes the **development of tailor-made active e-learning modules**, the setting up of practice that the participant will have to carry out alone then with his mentor and group training. In this solution, the **participant becomes involved in his training**. IBC can also **train the trainer internally** to give the factory complete autonomy.

This solution allows 2 key points:

- to perpetuate the knowledge of the factory
- to give autonomy to the factory in terms of training
