SERVICES

NEW AND KEY PRODUCTS

Capable of handling **all types of primary and secondary packaging**, CERMEX proposes one of the widest range of solutions on the market with single-function or multi-function machines depending on the layout constraints and speed requirements.

The main functions covered are product collating, case erecting/loading/sealing, shrink-wrapping (with or without seal) and palletization.

With an experience of more than 12 000 installations, CERMEX equips the leaders in each market, capitalizing on **exceptional expertise**, kept up to date by **an annual production of 450 machines**.
