## DCM USIMECA

### PRESENTATION / KNOW-HOW

DCM USIMECA is a **more than 60 years old** French private company.  
The company designs and manufactures machines for the packaging industry:

#### - Flexible packaging converting machines for the food industry

Rotogravure printing presses, laminators with solvent free, solvent based and water based adhesives, a full range of slitter rewinders and shrinkable Sleeve forming machines.

#### - Paper and carton converting machines for liquid packages and tobacco industry.

Rotogravure printing press for carton, rotary die cutting equipment, embossing unit and label cutters. These equipments are manufactured by the **ATN division** located at Olivet nearby Orléans.

Thanks to this wide range of machines, DCM USIMECA is one of the main actors in France.

80% of the production is exported all around the world.

VERSATILE LAMINATOR WITH MODULAR DESIGN

HIGH PERFORMANCE LEVEL SLITTER REWINDER

SHRINKABLE SLEEVE FORMING MACHINE

## NEW AND KEY PRODUCTS

Most of the **recent developments** are related to **the interface between the operator and the machine**. More and more push buttons are replaced by a large and color touch screen giving also the possibility to the operator to record production data or to send them to a centralised unit.

In order to **reduce the human risk**, the handling of the finished reels is achieved with automatic devices as part of DCM USIMECA delivery.

## MAIN CUSTOMERS

MAJOR INTERNATIONAL GROUPS: AMCOR - CONSTANTIA - CFS - ALTEA - UNIPACK...  
AND MANY OTHER INDIVIDUAL COMPANIES.
