SAVOYE

PRESENTATION / KNOW-HOW

SAVOYE designs and implements **logistic solutions** all over the world thanks to its 600 employees in Europe and in the United States, including system engineers and IT specialists who respond to their customers' problems by designing and implementing **IT solutions and automated systems**.

Three key aspects characterise the company's know-how and experience:

- **knowledge** of logistic requirements in relation to the customers' specialisations,
- **integration, execution and service**,
- **development of software** dedicated to the supply chain and **design** of intelligent machines.

SAVOYE is committed to **long-term collaboration** with its customers to help them face up to their developments and their challenges.

SAVOYE is a division of the Legris Industries Group.

NEW AND KEY PRODUCTS

In November 2012, SAVOYE launched a **new generation of 100% electrical conveyors: Intelis®**. Innovation: they are **smart, fully scalable and are connected on site**, no prior configuration, according to the Plug and Play principal. And all of this with reduced energy consumption.
