SLEEVEVER INTERNATIONAL

PRESENTATION / KNOW-HOW

A Pioneer leader with over 50 years of expertise in the design and manufacturing of equipment for "**Shrink Sleeve**" **Label application** (tubular heat shrinkable plastic label), offering packaging solutions for **covering, protecting and promoting primary packaging**.

SLEEVEVER Machines, and SLEEVEVER International Group division offers and markets two separate ranges:

- "SleeveverCombi" for **vertical packaging** (cans, bottles, etc..)
- "SleeveverLogicpak" for **horizontal packaging** of objects (pipes, pencils, cases, batteries)

Standard and advanced machines for **speeds between 6000 to 60 000 bph**.

- "**Special machines**": SLEEVEVER Machines also offers taylor made solutions to meet specific needs (makeup, vials, etc..)

The benefits :

- Global Company with over 50 years of Expertise and Experience
- Attentive Maintenance Service and **technical support on 5 continents**
- New modular machine concepts
- **High performance equipment** designed with the operators in mind
