SLEEVEVER INTERNATIONAL

PRESENTATION / KNOW-HOW

A leader with 40 years of expertise in the design and manufacture of equipment for "sleeve" application (tubular heat shrinkable plastic label), offering packaging solutions for **covering, protecting and promoting primary packaging.**

SLEEVEVER Machines, SLEEVEVER International Group division offers and markets two separate ranges:

- "SleeveCombi" for **vertical packaging** (cans, bottles, etc..)
- "SleeveLogicpak" for **horizontal packaging** of objects (pipes, pencils, cases, batteries)

Standard and advanced machines for **speeds between 6000 to 60 000 bph.**

- "Special machines": SLEEVEVER Machines also offers taylor made solutions to meet specific needs (makeup, vials, etc..)

The benefits:

- Global Company
- Service and **technical support on 5 continents**
- New modular machine concept
- **High performance equipment** designed with the operators in mind
