## ADS SERVICES

### PRESENTATION / KNOW-HOW

Created in 1969, ADS since early 90's proposes **stretch blow-moulding machines** for the production of PET bottles. In June 2012, 430 daily working ADS machines were identified in 71 countries on five continents.

ADS offers a complete range of services in partnership with its customers, from the project study till the commissioning of the equipment. The commissioning, training and maintenance are carried out by ADS teams in the world.

ADS PET blow moulding machines produce - each day - **a wide variety of containers** (0,1L to 30L).

Main advantages of ADS SERVICES machines:

- Linear machine, fully mechanical, fast and simple changeover system
- Precise, constant and homogenous heating
- Blowing in a strong and steady press, perfect control of the stretching, pre-blowing and blowing parameters. No low-pressure connection needed (ADS machines are fully independent as they recover part of the air after blowing)
- Low power consumption, low air consumption, low maintenance cost, small floor space needed.

Stretch blow-moulding machines from ADS SERVICES offers **speed from 600 up to 10 000 bottles per hour (BPH)**.

PET STRETCH BLOW MOULDING MACHINE TYPE G64

PET STRETCH BLOW MOULDING MACHINE TYPE G64

## NEW AND KEY PRODUCTS

Machine Type	Maximum Output	Maximum Bottle Volume
G61 (1 cavity)	1 200 BPH	8 liters
G62 (2 cavities)	3 400 BPH	2,5 liters
G62i (2 cavities)	3 400 BPH	2,5 liters
G62S (2 cavities)	2 000 BPH	10 liters
G63S (3 cavities)	3 000 BPH	5 liters
G64 (4 cavities)	7 000 BPH	2,5 liters
G66 (6 cavities)	10 000 BPH	2,5 liters
G81 (1 cavity)	600 BPH	20 liters

## MAIN CUSTOMERS

COCA COLA - PEPSI COLA - SCHEWEPPEs - BUNGE - LESIEUR - GROUPE INTERMARCHE - HEINEKEN - HEINZ - TOTAL PETROCHEMICALS - GROUPE SAINT AMAND - CHARBONNEAUX BRABANT...
